# WE'D LOVE TO DISCUSS YOUR HIGH ARCTIC TRAVEL PLANS

*Arctic Travel Centre is the specialist Arctic (& Antarctic) area of Tailor-Made Journeys. It's our first-hand knowledge that allows us to help you organise what could be described as the ultimate holiday. We will also look after your pre and post voyage arrangements.*

*We have selected a small number of vessels and operators that we know well and trust to provide you with that 'holiday of a lifetime'. Our goal is to give you professional and independent advice to help you select the right vessel, voyage, operator and travel at the right time to maximise your enjoyment and value from your trip.*

## MEET OUR KNOWLEDGEABLE TEAM

**Alex Burridge**  
*Managing Director*

In 2002 I undertook my first voyage to the High Arctic (Svalbard/Spitsbergen). I've been fortunate to join several voyages including, what is likely the ultimate

Arctic journey, a voyage to the North Pole & Franz Josef Land. My experience and knowledge gained whilst working for several Polar ship operators, allows us to offer expert, independent, advice to ensure your trip south really is as special as it should be.

**Cinzia Mucciante**  
*Co-owner*

I recently returned from the Canadian High Arctic (Baffin Island and Greenland) – I struggle to find words to describe just how

amazing the trip was. The scenery, the wildlife, the expedition crew and the ship were all amazing. I didn't realise just how powerful the ice would be, massive glaciers and near Illulissat thousands of icebergs.

**Hayley Crowden**  
*Polar Specialist*

In 2015 I realised a lifelong ambition of travelling to Antarctica.

In 2017 I was fortunate enough to follow up with a voyage to Spitsbergen (Svalbard), where the highlight would have to be seeing my first Polar bear, and what a sighting it was.

**Jennifer Boyd**  
*Polar Specialist*

My inaugural cruise to Antarctica was in 2004, the experience was beyond all of my expectations. Magnificent glaciers, beautiful icebergs,

impressive mountains and the wildlife encounters all contribute to the allure of the Antarctic continent. The second time round I experienced kayaking and camping on the ice as well finally experiencing the polar plunge.

**Alana Lewthwaite**  
*Polar Specialist*

My experience in Antarctica can be described as nothing short of amazing. Taking a 2 hour flight from Punta Arenas, Chile in a purpose built BAe-146

plane to King George Island in the South Shetlands. From King George Island, it was straight onto a Zodiac to board the waiting MV Ocean Nova, a 68-passenger ship with all the amenities needed for an exciting journey along the Antarctic Peninsula.

**Rachel Callus**  
*Polar Specialist*

In March 2017 I was lucky enough to visit Antarctica, South Georgia & Falkland Islands on-board the Luxury/Expedition ship Sea Spirit. It was fantastic

– mind blowing actually (occasionally literally – the winds down South have nothing to stop them). Nature lovers, history buffs, geology enthusiasts – every one of them will be overwhelmed by what they see it really was a trip of a lifetime and an experience of my life. I'd love to share with you my new-found experiences.

## GETTING THERE

We can look after all aspects of your voyage including all of your international flights whether that's to Canada, Norway, Iceland, Greenland or to harder to reach areas in the Russian Far East.

We are a member of AECO (Association of Arctic Expedition Cruise Operators), IAATO (International Association of Antarctic Tour Operators) and , as well as a member of AFTA (Australian Federation of Travel Agents) and of ATAS (AFTA Travel Accreditation Scheme) who set the benchmark of quality for the travel industry.

## EXPEDITION SHIPS

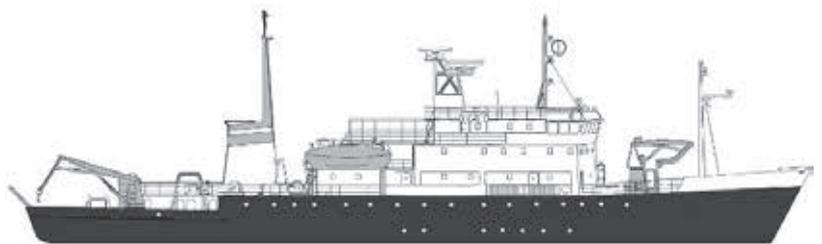

*Generally expedition ships have a greater emphasis on maximising time off the vessel or out on deck than on a larger more 'luxury' ship. This is helped by most having fewer than 100 guests, hence all guests can go ashore at the same time. On most days an Expedition ship will offer two off ship excursions. The expedition team works closely with the ship's captain and crew to deliver a high level of service and a flexible approach which means they can react to local circumstances; like a group of feeding whales, if possible they will stop and launch the zodiacs. The cabins are comfortable, the food of a very high standard.*

*An expedition client is someone who wants to maximise their opportunities to get off the ship and learn. Guests onboard are of all ages however you will be physically able to climb some relatively steep stairs and get in and out of a Zodiac.*

# EXPEDITION-LUXURY SHIPS

*As the name suggests these ships are a hybrid of an Expedition Ship and a Luxury Ship. Some are small ships with close to 100 guests and can offer two landings a day and focus on maximising opportunities for exploring as on an expedition vessel but with the added comfort of having larger, more comfortable cabins and common areas. Those with up to 200 guests generally offer one off ship excursion a day (largely due to time factors associated with the 100 passenger ashore limit) and still have an adventurous soul. Generally cabins are larger or perhaps the ship is newer than an Expedition ship. Meals are a mix of buffet and served courses and the cuisine is of a very high standard.*

## OVERVIEW

Maximum number of guests 120

The Greg Mortimer is a new and purpose built Polar cruise vessel. She is the first expedition cruise ship designed with the ULSTEIN X-BOW hull and will carry 120 guests. This technology allows for: gentle travel and motion at sea, improved comfort and safety on-board, lower fuel consumption, and 'virtual anchoring' which means the ship can float anchorless while launching her Zodiacs. Her maiden sailing will be in 2019 (all ship and cabin images are renders). There are four sea-level launching platforms for fast and efficient access to and from Zodiacs.

## ICEBREAKER SHIPS ARE DIFFERENT

*All of the other ships in this document have 'ice-strengthened' hulls, of slightly varying standards, and broadly speaking they are all capable and safe for the voyages they offer.*

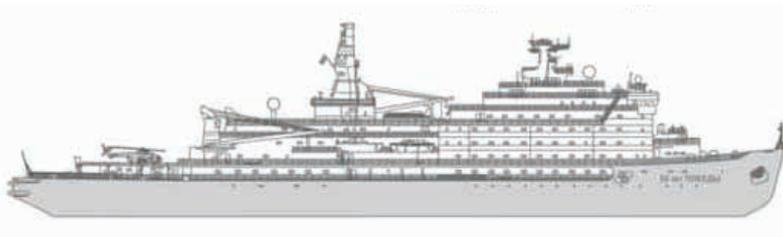

*An icebreaker is heavier, stronger and more powerful, they also have a different bow shape. An ice-strengthened ship cannot make it all the way to the North Pole, the multi-year sea ice is far too thick only an ice-breaker can make it to the top of the world.*

*One of the most powerful ships in the world – the 50 Years Of Victory.*

*The ship has been designed with a double hull and a spoon-shaped bow. The shape of the vessel increases icebreaking capabilities and the hull is coated with polymer paint to reduce friction. She is an upgraded version of the Arktika Class icebreaker fitted with a digital automated control system. The ship has a helipad suitable for a MI-2 or KA-32 helicopter. The ship's propulsion plant includes two nuclear reactors: one to provide power and the other kept in standby mode.*

*The icebreaking is assisted by the air bubbling system and water ballast located in between the inner and outer hulls. The air bubbling system can deliver 24m<sup>3</sup>/s of water from jets to 9m under the surface. The vessel can break ice while sailing forward or backward.*

*Construction: The construction of the ship began in October 1989 and was finally completed in the beginning of 1993.*

# LUXURY SHIPS

*These luxurious ships combine more traditional-style cruising with an Arctic adventure. They offer large, very comfortable cabins with en-suite facilities; many suites have private balconies. Excellent cuisine options are available on board. Zodiac dinghies and an expedition team enable you to explore the Arctic and come home to an exquisite ship. A luxury ship puts greater emphasis on the on-board experience. On-board the larger (200 guest) luxury vessels there are limitations on the number of landings made each day as at most sites there is a 100 person limit of people ashore at the one time.*

# BOOKING TERMS & CONDITIONS

Please read the following booking conditions carefully and make sure you understand them before booking your holiday. By paying your non-refundable deposit to Tailor-Made Journeys Pty Ltd trading as Arctic Travel Centre you are accepting these conditions.

## 1. Tour costs

Costs are based on ground costs, airfares and exchange rates at the time of booking. While we make every effort not to increase prices, in the event of exchange rate fluctuations, increases in hotel rates, airfares, entrance fees, fuel costs or increases in ground operator fees, we reserve the right to amend our prices, with or without notice, at any time up to and including the day of departure. Acceptance of this arrangement is an express condition of making a booking.

## Rates

Fares are quoted in two currencies dependent upon the ship

US Dollars:

Ocean Nova, 50 Years of Victory, Akademik Shokalskiy, Spirit of Enderby, Hondius and Sea Spirit.

Australian Dollars:

National Geographic Explorer, National Geographic Orion, Ocean Adventurer, Greg Mortimer, Silver Explorer, Silver Cloud, Le Soréal, Le Boréal, L'Austral.

Rates for voyages, flights are based on tariffs and exchange rates in effect at the time booking and are subject to change prior to departure. Substantial changes in tariffs, exchange rates and the price of fuel, services and labour sometimes increase the cost of expedition arrangements significantly. Arctic Travel Centre reserves the right to alter prices or introduce surcharges accordingly, even if payment has been received in full. All travellers are required to pay for their excursions and additional purchases in conjunction with their excursions in the same currency. Discounts and Promotions; Arctic Travel Centre has the right to limit, withdraw or change any and/or all discounts and promotions without notice and/or compensation.

## 2. Not included in your tour costs

Airfares unless otherwise stated, visa and passport costs, travel insurance, excess baggage, airport departure and ticket taxes, laundry, postage, telephone calls and items of a personal nature, vaccination and medical expenses, meals not mentioned in itinerary, beverages, and gratuities

## 3. Insurance

It is a condition of booking with Arctic Travel Centre that you take out comprehensive travel insurance for the full duration of your holiday. We suggest that you take out insurance at the time of booking and that the policy should include, but not be limited to, the following features: loss of deposit through cancellation; injury; death; theft; loss of luggage and personal items; curtailment of tours en route; medical expenses; cancellation of advance purchase airfares; additional expenses to cover hotel accommodation and repatriation costs to Australia should your tour need to be extended or curtailed due to illness while overseas, or due to a need to return because of an unexpected death or illness of a close relative.

## 4. Changes and transfers

Should you wish to make changes (not including transfers) to your booking after confirmation has been advised, a fee of \$75.00 per booking will be levied on each change made. Any changes requested by you after final documentation has been issued will incur a fee of \$150.00 per booking plus any other fees levied by hotels, ground/cruise operators and/or airlines. We will do our best to process and obtain confirmation of your changes but it is important to realise that changes, especially close to departure date, can take some time to confirm and some may not be possible. Transfers of Deposits or Payments to Alternative Voyages Should travellers be unable to take the expedition they originally booked but would like to travel on an alternative date, it may be possible to transfer deposits or payments from the original booking to an alternative voyage. Arctic Travel Centre reserves the right to prohibit transfers on any of its voyages. Should a transfer request be granted, a change fee will be charged by the cruise operator.

## 5. Itinerary variations

It is possible that circumstances beyond our control may necessitate a route or itinerary change and, in the event of such an occurrence, we reserve the right to cancel or re-schedule tour departures and itineraries. Where it is necessary to change a hotel, we reserve the right to substitute accommodation of a similar standard. No refund will be available in the event of an itinerary or hotel change. The itinerary described is subject to change at the discretion of the ship's Captain and voyage Expedition Leader. This is an expedition to a remote part of the world and the ship operator reserves the right to change the itinerary due to weather conditions, availability of anchorages, political conditions or other factors beyond its control, without consulting the traveller. It is understood that such decisions will be made in the best interests of all travellers aboard and with regard to the safety of the vessel. The traveller has no right to any refund or other considerations in the event of these itinerary changes. The traveller must be in possession of a valid passport and any visas, permits and certificates that are required for the duration of the services provided by Arctic Travel Centre, and shall arrange for such vaccinations as are normally recommended for the countries through which he/she intends to travel.

## 6. Cancellation

If it becomes necessary for you to cancel your tour, you must notify us in writing. Upon receipt of your written notification, cancellation will take effect and the ship operator charges specified on your confirmation invoice will apply per person. You will also be liable for any additional penalties levied by hotels, ground operators and/or airlines.

## Cancellation by Ship Operator

Arctic Travel Centre and its partners begin planning voyages many months in advance of departure. Occasionally, changes have to be made both before and after bookings have been confirmed. Arctic Travel Centre reserves the right to cancel any service prior to departure, in which case payments made will be refunded without further obligation on our part. Please note that, in the event of cancellation, Arctic Travel Centre will not be responsible for the cost of any additional travel arrangements beyond the voyage, or other items not purchased through Antarctica Travel Centre.

## Force Majeure

Arctic Travel Centre has the right in the case of force majeure (e.g. war, uprising and natural disasters, abnormal/exceptional weather and ice conditions, legal stipulations of the local/regional authorities, and "acts of God") to cancel your trip. Arctic Travel Centre may not be held liable for any claims made due to force majeure. If situations of force majeure occur during the trip, Arctic Travel Centre or its representatives will try to offer an alternative program. If this should prove impossible, either Arctic Travel Centre, its representative, or you are entitled to cancel the trip. In such a case, Arctic Travel Centre will not be held financially liable. However, in the event of any cost savings, Arctic Travel Centre shall refund these monies to you. Arctic Travel Centre or your travel agent is obliged to assist you in obtaining a return trip/flight, however, in such circumstances you are responsible for any costs incurred. Arctic Travel Centre is not liable for costs incurred by you in preparation of the tour, nor for reservations of travel components (such as, but not limited to, flights, hotels, connecting programs, travel insurance) which are booked elsewhere in combination with the trip booked with Arctic Travel Centre.

## 7. Refund/unused services

No refund is available for cancellation after travel has commenced. If you make any alteration to any portion of your holiday while you are away, costs incurred by such alteration will be at your own expense. After the holiday has commenced, no refunds are available for any services/ground content provided in the tour price but not utilised by you for any reason. Adventure Options (e.g. kayaking) Prices quoted are based on group participation and no refunds will be made for any part of the program in which you choose not to participate, including kayaking, camping, cross-country skiing, snow-shoeing, or mountaineering, or which, at the discretion of the Captain and Expedition Leader, may or may not proceed for operational reasons or due to adverse conditions. It is understood that refunds cannot be made to travellers who do not complete the services for any reason whatsoever.

## 8. Health and immigration

Medical forms, or, if applicable, a direct online link to the cruise operator's required forms, will be sent to you via email once your deposit has been received. You must review and complete the forms immediately (one for each person travelling) and, if not completed via the operator's link, return them to Arctic Travel Centre or your travel agent. For travellers who book within 90/120/180 days of departure, completed medical forms must be received within 7 days of making payment. The cruise operator reserves the right, at its sole discretion, to deny boarding, without refund or resulting expenses, to any traveller at the pier for any reason, including but not limited to the event that the on-board medical officer determines the traveller not to have disclosed accurate medical information. It is also your responsibility to provide information of any pre-existing medical conditions and/or disability that could reasonably be expected to affect your booking, as well as the enjoyment of others on the trip. Arctic Travel Centre (or the cruise operator) reserves the right, at its reasonable discretion, to refuse your participation on a trip and/or cancel your booking. You should familiarise yourself with any health or visa requirements that may be applicable in the areas you intend visiting, and you shall be responsible for all exit, entry, health and other documents required by laws, regulations, orders, demands or requirements of the countries visited or transited. You shall carry a valid passport at all times.

## NEXT STEPS

**Please call 1300 323 194 or email [contact@arctictravelcentre.com.au](mailto:contact@arctictravelcentre.com.au) one of our specialists to discuss your ideal Arctic adventure.**

We enjoy discussing your plans for a trip to the High Arctic, we'll ask a number of questions including; what style or size of ship (both of which effect your experience), when and how long a voyage, preferred cabin type, do you want a fly-cruise and do you have specific interests e.g. wildlife must see Polar bears, or want to see walrus.

Once we have a good idea of your interests, timings, including budget, we will suggest the voyages/ships we believe best suit your requirements. Once you are happy we will hold a cabin/berth (usually for 5-7 days) during which time a deposit is due (ranging from 20% of the voyage price to a fixed fee of \$2,500 – it varies by ship/operator). The balance of payment varies between 90 and 120 prior to departure (we'll confirm the ship specific terms at time of booking).

## ADDITIONAL ARRANGEMENTS

We can book all your flights, pre- and post-cruise accommodation and transfers (if needed), and any additional travel arrangements. A non-refundable deposit of 20% of the total cost of these arrangements or \$550.00 per person, whichever is the greater, is required to proceed.

## VISAS/ENTRY FEES

Most countries require you to travel with a passport that has no less than 6 months remaining validity. For visa requirements please check with us or your travel agent. Australian passport holders do not currently require a visa for Australian passport holders require a visa for Norway (Svalbard), Denmark (Greenland) or Iceland. Canada have introduced an Electronic Travel Authorization (eTA) program. Australians now need to obtain an online authorization before flying to Canada. A fee of \$CA7 is payable for processing an application for an electronic travel authorization. A visa is required for Russian Far East voyages. You will be provided with a 'letter of invitation' which should be included when applying for your Russian visa.

## HEALTH & VACCINATIONS

An Arctic trip may be somewhat strenuous at times and it is important that you are in reasonably good health with a high level of mobility, able to get in and out of Zodiacs on the excursions and to complete emergency evacuation procedures unassisted. No particular vaccinations are required to travel to the Arctic.

## REQUIRED CRUISE DOCUMENTATION

Once your booking is deposited and confirmed, you will be required to complete a number of forms providing personal and medical information, arrival departure details and, if applicable, adventure option waivers, gear rental requests, etc. Depending on the cruise operator, you will either receive these as hard copy forms to be returned to us or to your travel agent or will be provided with an online link directly to the cruise operator. All completed information must be received or entered online no later than 90-120 days prior to your travel date.

## ACCOMMODATION & TRANSFERS

We require all clients to arrive in starting point often no later than the night before the voyage departs. Some operators include a pre- and/or post-voyage night in their voyage cost, along with an arrival transfer to your hotel, while others do not. At the end of the cruise, most operators include a group transfer from the ship to the airport or into the town centre. If accommodation and/or transfers are not included in your voyage cost, or if you would like to spend extra nights in the city prior to your cruise and perhaps enjoy some tours and activities, we are able to book all your additional arrangements.

# SHIP SIZE

The size of the ship, in conjunction with the style of operation (Expedition, Expedition/Luxury or Luxury), has an effect on your experience.

SMALL – LESS THAN 121

MID-SIZED – 122 TO 150

LARGER – 151 TO 240

What do we mean by a 'small ship'? In simple terms a ship that can land all of its passengers at one time (you do not have to wait), which in the Arctic this means those ships with a maximum of 120 guests.

Most ships offer kayaking options for 16-20 guests, as they are not going ashore they are not included in the 100 passenger total; hence ships with up to 120 total guests fit into this 'small ship' category.

These ships cannot land all of their guests at one time, some of the guests will have to wait before they can go ashore. That said they only have 30 or 40 more guests to take ashore (excluding any kayakers).

Often ships of this size will also offer a 'zodiac cruise' either as an alternative to, or prior to, going ashore. This means you don't necessarily have to wait on the ship; you may have a choice to go ashore, to enjoy a zodiac cruise or both. Of course if all 150 guests wish to go ashore it will take more time to allow everyone to do so. This will effect either; the number of sites you visit or the total time you spend at each site.

Whilst in 'cruising' terms a ship with less than 240 guests would normally be considered small, in the Arctic those with 150-240 are considered large as they cannot land all of their guests at one time. If all guests wish to go ashore then it is likely that, compared to a 100 passenger ship, these vessels will either visit fewer sites in a day, or spend less time ashore at any sites visited. Some Expedition/Luxury category ships may run simultaneous zodiac cruises and landings and then offer clients the chance to swap. Many Luxury ships with 200 or more guests make one landing per day. It is in part why the on-board part of a luxury Arctic cruise is of greater importance; as you spend more time on the ship.

## There are many valuable Association of Arctic Expedition Cruise Operators (AECO) Guidelines here are just four;

- Do not land more than 100 passengers in the same general area outside settlements, unless site specific guidelines states different numbers.
- The guide to visitor ratio must not exceed 1:20 outside settlements unless site specific guidelines states differently, and must be lower if local conditions and regulations require.
- No disturbance distance: The principle is that we will avoid disturbing the animals. That does not mean that we will move forward until we see a reaction, and then stop. The principle is that we shall avoid provoking a reaction in the first place
- Leave no lasting signs of your visit
